

STEP 3: Accept and write a review

- Select the Alerts for new review assignments or notes.

- At the Alerts page, you can see all the reviews assigned to you (review requests). You can select the View option to access more information on the review that is requested from you. If you click at the dismiss cross icon, the review assignment will no longer show on the Alerts page.

- Once you access the information on the review assignment, you can now answer to the review request by clicking the Answer request in the right menu. You need to accept the review request in order to write the review. You can also decline the review request here. Please answer the request as soon as possible to let the person who requested your assistance with the review know, whether you are willing to review the paper or not.

- When you answer the review request, you need to choose whether you accept the review assignment or not. You can also add a message to the person who requested the review from you, suggesting other possible reviewers or adding any information you deem necessary. This message (along with your decision) will be sent to the person who requested the review from you when you click the Select and/or send message button.

Review Request

To submit the review Submit review
Download review form

... requested you to review the following submission for CLADAG 2017. You [redacted] accepted the request.

There are two ways to submit a review:

1. Use "Submit review" in the top right corner. This way is easier and generally preferred.
2. Use "Download review form" in the upper right corner. It will give you a review form that you can fill out and email to the PC member who sent the request to you. Note that every review form is individual and cannot be reused for another review. This way is not recommended and error-prone. If you decide to use this way, download the review form, fill it out and [send it by email to](#) [redacted].
