

Call for Papers

Thematic issue of Statistica Applicata – Italian Journal of Applied Statistics on
deadline September 1st, 2023

Labour Market: analysis, trends and new scenarios

In the past two decades, there has been an increasing concern about the new job regulations and the financial-economic crises that have deeply modified the EU and Italian Labour Market yielding long economic recessions and/or a widespread unemployment in most regions. Furthermore, the most recent international events have further affected the stability of all EU economies with many consequences on the employment opportunities.

In the light of the above thoughts, this thematic issue seeks applied and methodological papers in any area of the labour market and the labour force research field.

Topics of interest include, but are not limited to:

- Statistical methods for the labour force analysis
- Labour market policies
- Employment, unemployment, and transitions
- Job demand and supply matching
- Education, training and human capital
- Fertility, migration and works

The call is for all works and research papers presented at the 1st Italian Conference on Economic Statistics held in Milan, University of Milano-Bicocca. but remains open to anyone else interested in submission. Submitted papers have to be original and not previously published or currently submitted elsewhere for journal publication.

Guest Editors:

Elena Fabrizi, University of Teramo, efabrizi@unite.it

Francesca Adele Giambona, University of Florence, francesca.giambona@unifi.it

Caterina Marini, University of Bari, caterina.marini@uniba.it

Andrea Marletta, University of Milano Bicocca, andrea.marletta@unimib.it

Papers have to be submitted online and formatted according to the Statistica Applicata -Italian Journal of Applied Statistics format at: <https://www.sa-ijas.org/ojs/index.php/sa-ijas/about/submissions> . All submitted manuscripts will be peer-reviewed, and they are expected to adhere to the Journal's standards. Authors are required to follow the specifications in the "Authors' Guidelines".

During the submission procedure, authors should specify in the field "Comments for the editor": Thematic issue on "Labour Market: Analysis, trends and new scenarios".
